New York Stock Market

NEW YORK, July 12.—The speculation in stocks maintained a waiting stillude to-day, but in more confident mood than was evident last week after the disappointing response to the favorable crop reports. The professional element had the narrow market largely to themselves. The argument which prompted their course might be formulated in this way. Stocks failed to advance on last week's good news by reason of the extent to which previous buying had sniticipated it, and the desire or holders to realize their profits. The alight reaction thus caused had demonstrated, on the other hand, that realizing sales were not being pushed at the expense of values, the volume of the market having decreased to trivial proportions as prices fell back.

On Foreign Exchanges

LONDON, July 12.—Money was in plentiful supply on the market to-day in spite of settlement requirement, and discounts were steady. Austria secured the bulk of the \$3,500,000 in gold available. Foreign securities carredly moved, owing to the indifference of Paris, while copper shares were active and firmer.

The opening prices of American securities showed irregular changes. Then good buying strengthened the entire list, and at floon the market was firm, with prices 1-8 to 5-8 higher than Saturday's New York closing. United States Steel and Illinois Central led in the invergence.
